ANĀNTA VILLAS

CANGGU

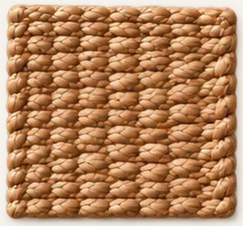

Interior standards

Interiors inspired by balinese nature and culture

Warm, earthy tones, natural materials, and custom-designed details create modern interiors that blend naturally with the character of Bali.

The interiors are complemented by curator-selected works of art created specifically for this project.

The generously sized bathrooms with walk-in showers offer plenty of privacy and an abundance of natural light.

Natural materials bridge the gap between the interior and exterior, giving the apartments a premium look and timeless design.

Expanded guest areas at the resort

Common areas are a natural extension of each apartment. The gardens and rooftop terraces offer additional spaces for exercise, relaxation, socializing, and moments of tranquility. Each of the three rooftops has its own distinct character—wellness, social, or active.

Infinity pool and sauna

Sunset lounge

Open-air gym

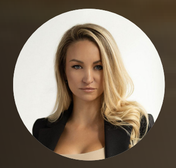

Comfortable facilities

From a hassle-free arrival to your everyday needs—the resort's facilities, including concierge services and twenty covered parking spaces in secure underground garages with direct access to the apartments, ensure your comfort.
